PROFILE SUMMARY

Experienced Flutter Developer with proficiency in Dart and a strong grasp of the flutter framework. Skilled in integrating Firebase for backend services. Proficient in state mangement using provider. Experienced in Api integration. A proactive learner with excellent problem-solving skills and a collaborative team player dedicated to delivering high-quality app solution

WORK EXPERIENCE

**My Impact Meter Pvt Ltd It
Company, Lahore.**

Flutter Developer

JUN2024 - PRESENT

- **API Integration:** Comprehensive expertise in integrating APIs to connect mobile applications with external services, enabling real-time data exchange and feature-rich functionality. Skilled in handling RESTful APIs, parsing JSON data, and ensuring smooth integration with minimal latency.
- **Firebase Services:** Extensive experience with Firebase, leveraging its suite of services to build scalable, secure, and efficient mobile app backends. This includes authentication, real-time databases, push notifications, and cloud messaging to enhance app performance and user engagement.
- **Firebase Cloud Firestore:** Proficient in designing and implementing serverless backend logic using Firebase Cloud Firestore. Adept at structuring Firestore databases for optimal performance and ensuring secure and efficient data transactions through Firestore rules and queries.
- **State Management:** Deep understanding of state management techniques to ensure smooth app performance and user experience. Skilled in using Provider for dependency injection, managing app state, and building reactive user interfaces that adapt dynamically to data changes.
- **Google Maps Integration:** Experienced in implementing Google Maps functionality within mobile applications to provide interactive, real-time location-based features. This includes handling markers, routes, custom map styling, and integrating geolocation services to create user-friendly navigation experiences.

**My Impact Meter Pvt Ltd It
Company, Lahore.**

Flutter Intern

Mar -May 2024

- **Dart Programming:** Proficient in Dart, the programming language used for Flutter development.
- **Flutter Framework:** Comprehensive understanding of Flutter's architecture, widget system, and development environment.
- **Widget Utilization:** Skilled in using various Flutter widgets, including Text, Image, and ListView, to create dynamic and responsive UIs.
- **Application Development:** Experienced in developing small, functional applications to demonstrate and apply Flutter development skills
